1.15 Planned Unit Development Districts; Establishment

Prior to June 15, 2007, the provisions of the Zoning Ordinance allowed certain zoning districts to be rezoned for a planned unit development (PUD) (see Chapter 04: Planned Unit Developments).

1.16 District Land Uses

A. General: Each standard zoning district lists land uses that are allowed in that zoning district. Such land uses are of two kinds: permitted uses and Special Exception uses. The County’s permitted and Special Exception uses for each zoning district are noted in the “Permitted Uses” and “Special Exception Uses” columns in Chapter 02: Zoning Districts.

B. Permitted Uses: The list of “Permitted Uses” is intended to be exemplary and not exclusive. Other permitted uses may be allowed by the Plan Commission if they are similar in nature and scope to the permitted uses.
1.17 Official Zoning Map
The map labeled “Official Zoning Map” is hereby included as part of the Unified Development Ordinance and is to function as the means to identify a zoning district for each parcel in the County. The zoning map shall be formally known as the “Official Zoning Map” and it may be cited and referred to as the “Porter County Zoning Map” or the “Zoning Map.”

1.18 Official Zoning Map; Location
The Official Zoning Map shall be located in the Plan Commission Office.

1.19 Official Zoning Map; Zoning District Boundaries
The zoning district boundaries shall be shown on the Official Zoning Map. The abbreviations for the zoning districts appearing in the Unified Development Ordinance shall be used to identify the zoning districts on the map.

1.20 Official Zoning Map; Regular Revisions
The Official Zoning Map should be formally revised as changes are made (i.e. rezonings, planned unit developments, annexations), or as the Executive Director or Plan Commission determines necessary. During the time it takes for each formal electronic version of the Official Zoning Map to be prepared and printed for public display, hand drawn lines and text on the previous Official Zoning Map will be appropriate to note zoning district changes. Revisions may be made at any time to correct drafting or clerical errors and omissions in the map.

1.21 Official Zoning Map; Standards
Zoning district boundaries on the Official Zoning Map shall be interpreted as follows:

A. Streets: Zoning district boundaries shown within or parallel to the lines of streets, easements, and transportation rights-of-way shall be deemed to follow the centerline of the affected street, easement, or right-of-way.

B. Section Lines: Zoning district boundaries indicated as following or being parallel to section or fractional sectional lines, platted lot lines, or corporation lines shall be construed as following or paralleling such lines.

C. Water: Zoning district boundaries indicated as approximately following the centerline of streams, rivers, or other moving bodies of water shall be construed to follow such centerlines.

D. Vacation: Whenever any street, alley, public way, railroad right-of-way, waterway, or other similar area is vacated by proper authority, the zoning districts adjoining each side of the vacated area shall be extended automatically to the center of the vacated area. All areas included in the vacation shall thereafter be subject to all regulations of the extended zoning districts. In the event of a partial vacation, the adjoining zoning district, or zoning district nearest the portion vacated, shall be extended automatically to include all of the vacated area.

E. Interpretation: Any disputes as to the exact zoning district boundaries shall be determined by the Executive Director. The Executive Director may refuse to make a determination when he cannot definitely determine the location of a zoning district boundary. The Plan Commission may then interpret the location of the zoning district boundary with reference to the scale of the Official Zoning Map and the purposes set forth in all relevant provisions of the Unified Development Ordinance.

1.22 Official Zoning Map; Overlay District Applicability
The overlay district boundaries on the Official Zoning Map shall be interpreted as follows:

A. Labeling: An overlay district shall be noted on the Official Zoning Map with a hatched or textured pattern and be noted as such on the map legend.

B. Fully Covered: A lot that is fully covered (bounded) by an overlay district shall be interpreted to be subject to the overlay district standards found in Chapter 03: Overlay Districts.

C. Partially Covered: A lot that is partially covered (transected) by an overlay district shall be interpreted to be subject to the overlay district standards to the extent the lot area is covered by the overlay district.
